

Alex R. Mercer

B.S. COMPUTER SCIENCE SENIOR • FULL-STACK WEB DEVELOPER

 alex.mercer@university.edu  (555) 234-5678  linkedin.com/in/alex-mercerev  github.com/amerceer-web

 Austin, TX

Motivated Computer Science senior specializing in modern web technologies and full-stack architecture. Proficient in TypeScript, React, Next.js, and Node.js with experience building responsive user interfaces and scalable REST/GraphQL APIs. Passionate about clean code, performance optimization, and intuitive UI/UX design.

TECHNICAL SKILLS

Frontend Tech:	React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit
Backend Tech:	Node.js, Express.js, RESTful APIs, GraphQL, PostgreSQL, MongoDB, Prisma ORM
Developer Tools:	Git/GitHub, Docker, Webpack, Vite, Postman, Vercel, AWS (S3, EC2 Basics)
Testing & Concepts:	Jest, React Testing Library, CI/CD Pipelines, Responsive Design, Web Accessibility (WCAG)

EXPERIENCE

Software Engineering Intern (Web Team) Jun 2025 – Aug 2025
Nexus Web Studios Austin, TX

- Engineered responsive frontend components in **React and TypeScript** for a client dashboard serving 40k monthly active users.
- Optimized web page assets and API query rendering, improving Lighthouse performance scores from 72 to 94 and cutting LCP by 1.2s.
- Developed micro-backend endpoints using **Node.js and Express** integrated with a PostgreSQL database via Prisma ORM.
- Collaborated with UI/UX designers in Figma to transform high-fidelity wireframes into accessible, pixel-perfect Tailwind CSS components.

Student Web Developer Jan 2025 – May 2025
University Department of Computer Science Austin, TX

- Maintained and updated the department's public portal, converting legacy jQuery codebases into modern React components.

PROJECTS

DevPulse – Developer Project Collaboration Platform Next.js 14, TypeScript, Tailwind, MongoDB

- Built a full-stack SaaS application allowing student developers to post projects, search for collaborators, and manage tasks.
- Implemented secure user authentication with NextAuth.js, real-time messaging using Socket.io, and image uploads via AWS S3.

TaskFlow – Kanban Project Management Tool React, Redux Toolkit, Node.js, Express

- Developed an interactive drag-and-drop task board utilizing HTML5 Drag and Drop API and Redux state management.
- Designed a secure REST API with JWT authentication and rate limiting to handle task CRUD operations safely.
